

PROHIBITED ITEMS

Hazardous Material/Articles aboard Aircraft

Hazardous materials include many common items from your home, workshop, or garage which because of the physical or chemical properties can pose a danger during air transportation. The following is a partial list of common items that are strictly forbidden in carry-on or checked baggage:

- Mace, tear gas, and other irritants
- Aerosols containing flammable material
- Loaded firearms
- Gunpowder and primers
- Loose ammunition
- Gasoline, diesel, or kerosene
 - Propane, butane cylinders or lighter refills
- Wet-type batteries (as used in cars)
- Safety or "strike-anywhere" matches
- Corrosive material
- Infectious substances
- Radioactive material
- Any equipment containing fuel

The following hazardous articles may be transported in restricted quantities in hand-carried or checked baggage. A restricted quantity is what a passenger would use on a short trip.

- Toiletry articles and medicines containing hazardous substances
- Matches: 2 books per person
- Electronic wheelchairs as checked baggage
- Small arms ammunition for sporting purposes when properly packaged
- Catalytic hair curlers without refills - Oxygen cylinders used by individuals for medical purposes
- Dry ice in small quantities
- Aerosols intended for personal care (hair sprays and deodorants)
- Lithium batteries located in watches, computers, etc.

As a reminder I.A.W. TSA Guidelines, travelers may now carry travel-size toiletries (3 ounces or less) that fit comfortably in one, quart-size, clear plastic, zip-top bag. This bag must be removed from your hand carried luggage and placed separately in one of the bins provided.
