

How to search documents in the Administrative Record (AR)

Step 1.- Click the [Blue](#) “Continue to Site” button

AFCEC ADMINISTRATIVE RECORD

US AIR FORCE CIVIL ENGINEER CENTER

The AFCEC CERCLA Administrative Record Search website provides a means to search and review public documents regarding environmental testing and sampling conducted at Air Force installations in compliance with the federal Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). These documents form the basis for environmental response actions and demonstrate the public's opportunity to participate in and comment on the selection of the response action. AFCEC continuously updates the Administrative record for each installation until the remedy selection documentation is complete.

AFCEC provides integrated engineering and environmental management, execution, and technical services that optimize Air Force and Joint capabilities through sustainable installations. AFCEC is the DoD leader in worldwide engineering and environmental services – enabling sustainable Air Force and Joint installations to project global air, space, and cyber power.

For consistency and ease of access, documents are stored and presented in standard PDF format. A PDF viewer is required to view the documents. Adobe Reader is available as a free download from Adobe software.
